

MS Bench (G) SCI 2

Part number: 3302770

Description

Developed exclusively for SCIEX, the MS Bench SCI 2 range provides a modular workstation with provision for either integrated gas generation or a noise abating enclosure for roughing pumps. MS Bench SCI 2 is designed specifically for use with the SCIEX Triple Quad™ 7500 LC-MS/MS System– QTRAP® Ready.

Two variants of the MS Bench SCI 2 are available. MS Bench (G) SCI 2 features a self contained gas generator, providing a reliable and cost efficient source of both nitrogen (Curtain Gas™) and clean, dry oil-free air for source and exhaust gas at flows and pressures configured to meet SCIEX 7500 System requirements. The other variant, the MS Bench SCI 2, comes without the gas generator, instead providing a compartment below the bench, suitable for housing up to two MS roughing pumps.
